

VERIZON PAPER ON 22nd APRIL

Hi Gyes i am balakrishnan V.R.S.College of engg,
I was attended the verizon interview on 22.i am waiting for result.dont fear about verizon fully easy questions.you dont want prepare for written test.but you must prepare for the C& Data structure section.

There are 4 sections written test:

1.VERBAL ABILITY	20QUESTIONS	15MINS
2.ANALYTICAL ABILITY	25QUESTIONS	30MINS
3.ATTENTION DETAIL	20QUESTIONS	20MINS
4.C AND DATASTRUCTURES	10QUESTIONS	15MINS

From verbal ability

Q1-10 based on Articles and Preposition.it completely easy one.for this part you preapre any grammer book.they ask multiple article and preposition in a single question.easily you can fill within 5 minutes.

Q 11-20 gave one passage and from that passage they ask question its mainly on technical like database.here they give 2 passage each having 5 question.

for me first passage from database and second from framework like java and j2ee.how to choose the framewor?like this they gave.so you can esily write this section within 15 minutes.

From Analytical ability:

In this section also easy one but time management is very important you must have fast skill for solving apptitude first three question from venn diagram.for me they ask like this.

In film criticis process 62 people seeing US based film,75 people seeing Indians film,86 people seeing chinese film,45 peoples seeing both US and indians film,34 people seeing both Indians andchinese film,26 people seeing chinese and US based film.3 people seeing both the 3 films.

- 1.how many people seeing only indians film?
- 2.how many people seeing both chinese and US based film?

like this i dont know exact datas for thiis question.

Second question also from venn diagram.

so you must solve htese type question quickly.

and in this section also having following type question.

IF \$ REPRESENTS 1,* REPRESENTS 0 THEN

1.15*(AVERAGE OF 8,22,16) REPRESENTS----- LIKE THAT 5 QUESTIONS.

then cube problem one will be come.

the datasufficiency question 5 will be come you can solve these question easily.
for me question is.

eligibility criteria for joining the institution is

- 1.they must have graduation of M>Sc.
2. they must worked in any computer company.
- 3.their residence will b within the 3km from the institution.

the candidate must fulfill this criteria only joined except.

1.the student having any degree and they having electronics knowledge they will be handover to manager.

like this they giving 4 choice you can easily do this quickly
third section Attention Ability:

in this section question mainly like this

- A. IF THE THREE SETS OF NUMBERS ARE EXACTLY ALIKE
- B. IF THE FIRST AND SECOND NUMBERS ARE EXACTLY ALIKE
- C. IF THE FIRST AND THIRD NUMBERS ARE EXACTLY ALIKE
- D. ALL ARE DIFFERENT

- 1. 23455622 23455623 23456355
- 2. 234.26535 234.26535 234.26535

and IF + IS *, - IS /, * IS +, / IS - THEN (5 QUESTIONS)

$12+45-26*67/76=35$ from the following answer which one is true? like this question we want to check all the choice so fast is very important.

and Addition: O subtraction: S Multiplication : A Division : C

equal: Z greater than: X less than: S then

1A3S5C5O9X10 like this 4 choice which one is true? like this 5 Questions will come this question also want fast solving skill.

fourth section is C and DataStructure:

here mainly question come from pointers and stack queues and graphs and file concept.
