

IBM Interview process

Its a 2days process

on first day they have taken written test and english test

2nd day followed by GD,technical and project developemnt round

1.WRITTEN TEST

Its an online test called as IPAT test each question has 2.15sec timelimit first 15 questions completely on number series only .we can clear easily if we have practise on number series after 15 question session gets close and next same pattern continues with change of questions on percentages,ratios,probability ,areas.....lot practise requires to clear this session as each question will be tricky and time taking to solve

2.ENGLISH TEST

Its jus a 15 min test they will give one paragraph from that we need to write an email to the client in jus 6lines .salutation is most important in the email writing ..if we give clear saluation we can clear the round easily . but many participants gone in this round only by doing silly mistakes like writing as thanking you as we write in letter writingremember its an email writing

3.GROUP DISCUSSION

In our room we are 15 participants and has given the topic ROLE OF WOMEN IN DEVELOPEMNT and has given 2min time to think the points and 15 minutes time to speak among us and given each participant one minute for summary ..

NOTE:speak confidently and fluently thast enough to clear this round .

4.TECHNICAL ROUND

This was my fav round ..HR was so friendly

SP:gud afternoon sir

HR:gud afternoon,take ur seat

SP:thank u

HR:tell abt urself

SP:tld..jus tell ur name ,father name ,location,schoolng ,graduation,family background,hobbies,strenghths

HR:write a program on multiplication of 3 numbers using C or java

SP:i have written and shown output too

Hr:good

HR:write syntax on bubble sort or insertion sert

SP:can i write on bubble sort sir .

HR:okay as ur wish..

SP: explained each and every line and how it get sorts

HR:ohkk.so u have an idea on javascript?

SP:yes sir ..(as i mentioned in resume he asked)

HR :y we use javascript?

SP:its for validation

HR: okay then take an example and show the validation

SP:i have written on ALERT msg box

HR: asked one puzzle like cut the cake into nine pieces using 3 cuts

SP: i tried max to cut into 9 but got 6 only

HR:smiled and said to leave .

5:PROJECT DEVELOPEMNT ROUND :

Covered topics on java in deep ,and asked my fav subject i said OS ..asked questions on it .what is assembly language.machine laguage,difference between them?,what is JVM?
about my final project?
usefulness of it?
C,C++ etc.
