

VERIZON PAPER ON 13TH MAY AT SANTHOME SCHOOL, CHENNAI

I attended verizon on 13th & 14th may 2008 at santhome school at chennai. test was conducted by meritrac. Test was same as previous. After cleared written test on 13th may, I was called for technical interview on following day. after failed in almost 45 companies finally I got verizon. I was the happiest person in the world on that day. how I would celebrate this occasion I was not able to think. i didn't believed that I got the job. here I am sharing my experience as follows:

TECHNICAL:

Tech: how r you?

Me: fine sir...

Tech: how did you apply for verizon? tell me about verizon.

Me: I told through monster sir... then told him about verizon.

Tech: tell me about yourself in brief?

Me: I told about my academic strength.. bla bla...

Tech: how you rate yourself in c out of 5? assume 1 is highest and 5 is worst.

Me: I told 2 (then I thought what I told it was too high). then I supposed to get some complicated pointer based questions.

Tech: excellent! you are too good at c. ok dear can u solve a program?

Me: that was I am expecting. he gave me 2 c program to write. I wrote... I was a bit nervous.. i didn't confirm that whether my program was right or wrong...

Tech: ok fine..! can u tell me about your project in detail...

Me: yes sir.. i explained... many questions were asked related to project.

Tech: r u feeling nervous?

Me: no sir... (but I was feeling a bit). i smiled a little..

Tech: ok.. anything you want to ask?

Me: (important question).. always prepare for this. they want how much interested in this company. i just asked about job profile, company's product and how that product will be beneficial for ordinary person.

Tech: he explained everything. then he asked me anything more?

Me: (I smiled a little).. no sir

Tech: ok fine!! do u have any relocation problem...

Me: sir... I told him that I am from bihar and studied at cochin. that is totally different culture.. but I managed nicely... (he convinced)

Tech: nice to meet you...

Me: (shake hands.. offered by him) thank you sir....!!!

After tech interview I was very tense that I didn't explained clearly the things... I could perform better. but I failed to do that. i was thinking what should I do next, either wait outside or leave. i rethought and decided to confirm at least to hr. i asked to receptionist that about the result. she told me to sit until get any confirmation from hr. after 45 minutes Receptionist called to receive a call of hr. hr told to go for lunch and come back soon. then she would tell the result. i was feeling nervous. my hunger had gone... I was only drinking water... I was praying for god!

Then hr called 3 person for hr round including me.. i was surprised and become a happy lot.... i decided I will perform much better than previous... no any fault... I must have to get this golden opportunity. the two guys came out with offer-letter. now my turn to get enter in hr cabin...

Hr: how r u?

Me: fine mam...

Hr: did u take lunch?

Me: no man... but I will take after sometimes...

Hr: how u came from Bangalore to Chennai and where do u stay?

Me: I told...

Hr: what have u doing since 1 year?

Me: I told..

Hr: what are your weakness? what are you doing for minimizing for that..?

Me: I explained...

Hr: why should I hire you?

Me: I explained about my strength and matching job profile..

Hr: ok fine!! fill this form and give back after 10 minutes...

Me (I was so much excited .i was not believing that I really got job...a billion of that to almighty god...my parents.. my friends.. my well-wisher and to all)....

Offer letter will get in 10 days...I returned back to b'lore and told my friends...they congrats me and become delightful...

Some tips---

*do your home work prior to interview.

*luck plays its own role but you must have to work hard

*prepare all hr questions

*confidence and attitude is very very important while interviewing...

*always attentive. what are the questions asked and what are you answering
