

VERIZON PAPER ON 22nd APRIL

hi frnds this is mahesh .i was written verizon test on 22nd apr 2007. If u r cool at the time of exam u can easily get through the test.

interview consists of 3 rounds

- 1.written
- 2.H.R.
- 3.Technical

written was easy it has 20 verbal questions,20 aptitude,20 analytical,15 C.

we have to find the out put of programs.

ex: register int a,b;

```
int *p, *q;
```

```
p=&a;
```

```
q=&b;
```

```
pf("%d %d",p,q);
```

note:for register storage class & is not used,because register itself points to a address

```
2. int a=100,b=200,p;
```

```
if(a!=100)
```

```
a=300;
```

```
p=200;
```

```
pf("%d %d",a,p);
```

```
ans:100,200;
```

3.one frm double linked list,one directed graph,etc

aptitude was very easy
