We had online test it was 1 hour duration each question was given 2 and half mins duration. Test consist of two sections.

1. Number series
2. Aptitude questions

All were easy you just observe carefully question you can answer. Calculator were allowed, use can even use system calcs.

No need to use calcs for number series just observe the problem carefully answer it.

Interview they will ask simple C programs and aptitude question. You should answer aptitude questions which is important for selection.
