

hi I am givin u the Novell pattern which 1 of my friends attended and cleared all

1st round Written tesse 4 sections

1. Aptitude [very easy and i dont think they count tht [bec my friend is poor in apt.]
2. System Concepts : B-trees and binary trees , Basically all Data structures , prepare Tenabaum
3. C pretty easy objective type
some q are
a) sscanf() is used for ?
b) he doesn't remember ?????
4. Write a passage on Java/Internet

2nd round : Technical Interview [2juyz] .Since in his resume 4 projects where on Linux/gtk also they asked him to write code in C for Expand function.

```
void expand(char *src,char *dest)
{
// for ex: src=ard2-9ddd
then dest shd be dest= ard23456789ddd
```

we have to search 2-9 and expand it.

```
}
```

Basically they will ask whtz there in ur resume, He had gtk so they drilled in GTK.
thtz it

3 round HR : He Cracked jokes and over he was in Novell.

I AM NOT RELATED TO NOVELL
