

## KANBAY

hi all..

I am getting a lot of enquiries about the Kanbay pattern.... I will tell you whatever I know...

I wrote this paper long back - March 12th to be exact. It was a walkin. There were no Technical questions till the last interview... so guys.. put your heads down and work on your speed and accuracy... Most of the ques were of the type you see in Agarwal(quants). Analytical is of medium toughnes.. That too tests your speed and accuracy (not like the stupid stuff infy throws at you ). There is negative marking(1 mark for a correct answer and -1 for wrong). So concentrate on accuracy... They shortlisted around 160 from the more than 3000 who wrote the test. Then we had gds in batches of 10. From every batch an average of 2 ppl were shortlisted. Then we had an interview chaired by both hr and tech ppl (30 - 45 mins). Well I got chucked out at that point (At that time I did not know even C properly). Thats all I know....  
**ALL THE BEST Guyzzz!!!!**
